

## ANCHOR - NOTES

- Plate 200x200x3 mm, steel S235 hot-dip galvanized.
- 4x M12 anchor bolts + chemical resin into C25/38 footing.
- Post welded/fabricated to plate via 4x M20 + back gusset.
- Footing min 400x400x500 mm; foot depth per local code.
- Grout 20 mm under plate; level before final top coat 500 Nmm.
- Isolating structural contact (EPDM pad) to avoid galvanic corrosion.
